

## ALFRESCO KITCHENS

# AN ENTERTAINER'S DREAM

### OUTSTANDING OUTDOOR ALFRESCOS

The featured project has it all; with unrivalled function, style, quality, and innovation – the hallmarks of Alfresco Kitchens.

The homeowners wanted a highly functional space, with lasting quality, that was in keeping with the surroundings. The kitchen needed to be large enough to cater for large gatherings, but not too large to impinge on the whole outdoor area.

For this project, as with all completed, the company selected and installed materials designed to not only cope with, but go the distance in the harsh external environment, as opposed to materials used in typical indoor kitchens.

The project incorporates impressive cooking capacity and versatility, exceeding most internal kitchens and rivalling many commercial kitchens. A large five-burner gas barbecue and wood-fire pizza oven have the cooking capacity to entertain up to 75 guests.

The kitchen's inspiring cooking capacity is matched with equally impressive refrigeration and storage capacity. Two double glass door beverage units provide ample storage for icy cold drinks, while the kitchen also features a

stainless steel door under-counter refrigerator for the safe storage of food items. Couple this with a kegerator – triple tower taps allowing a total of 54 litres of icy cold beer on tap and this kitchen can cater to even the largest entertaining extravaganza.

Clean-up is as easy as placing dishes into the dishwasher and relaxing and enjoying a few drinks with guests. Innovative design has delivered unrivalled capacity while maintaining balance in the outdoor space. Though highly functional, style hasn't been forgotten, with the use of render and natural stone benchtops throughout, matching the earthy surroundings.

Alfresco Kitchens specialises in the design and construction of chic and innovative outdoor kitchens. The company offers a complete service, including design, in-house manufacture and installation by its own qualified employees. All trades are catered for including plumbing and electrical work.

As well as outdoor kitchens, the company also designs and builds alfresco outdoor bars, completing a total of 100 to 125 projects each year in Perth's metropolitan and surrounding areas.
