investing in your

Owning rental property is an investment in your future.
Secure your dreams with a partner who can help you
optimise your property potential at the time. Every time.

future

Optimising systems and services

Professional

At Mark Hay Asset Management we have one goal – to make property management a seamless, painless and profitable process for you.

We do this by combining quality people with world-standard systems and procedures. We work to high levels of performance, constantly seeking to exceed expectations – and leave absolutely nothing to chance.

We cover all aspects of property management, including residential, commercial, strata management and corporate leasing.

We have what it takes.

Optimising opportunities

The bigger picture

While property management is about attention to detail, it is also about understanding the bigger picture, anticipating markets and trends and advising on the potential of rental properties.

And as a valued client of the Mark Hay Group you will always have the inside running on exciting new investment opportunities before they are released to the open market.

Go for it.

Optimising relationships

Partnership

We believe in extending a level of personal commitment well beyond that which standard asset management might normally demand.

Our aim is to create real and sustainable relationships with our clients so we can work in partnership over the years – whether it's a single property or a growing portfolio.

Real wealth creation is about building relationships based on trust, performance and commitment.

It's you and us.

Optimising communication

In touch

We believe the key to our success is keeping in touch – with landlords, tenants and the bigger picture.

Ultimately property managers' greatest downfall is lack of communication. At Mark Hay Asset Management we make communicating with you a priority.

We are very specific about response times, procedures, systems, standards and documentation. You will always know the exact status of your valuable investment.

We are also here to talk to you about your property dreams and aspirations and let you develop at your own pace. Above all there will always be a familiar face to call upon.

Let's talk.

we love what we do

optimising dreams
