How long does a beach portrait session take?

We generally set aside about 60-70 minutes for a beach portrait session. We will arrange the time with you based on the sunset time on the day of your session.

How many photos will you take?

The number of photos depends on the size and makeup of your group. Normally, a couple get around 200 photos from a session.

What should we wear for our beach portrait session?

We recommend white tops and khaki bottoms, white tops and denim bottoms, or white tops and white bottoms. The most important that your clothes are match each other.

The photos will look the best if everyone in the group selects the same color combination!

Where will you take our beach portraits?

We have a few spots that we like to use for our beach portrait sessions (Halls Head, Silver Sands etc.), but we know it is easier for many people if we come to you. If you would like us to meet you anywhere for your beach portrait, we are happy to accommodate you.

When will be able to see our beach portraits?

We work fast. We will have your proofs online within a few days of your session (usually within 48 hours). We will email you a link as soon as they are ready.

What happens if it rains?

We can't control the weather! Booking your beach portrait sitting early in your visit is recommended so that we have flexibility to reschedule if the weather does not cooperate! Wind is actually a more common problem than rain. If we have to cancel due to bad weather and rescheduling is not possible, we will refund your money in full. Usually we are able to reschedule! We've only had to give a refund due to weather once!

If you have any question do not hesitate to contact us!

Believe us it is going to be a fun and unforgettable evening!
