Function Spaces

The City of Perth Library is a state-of-the-art building located within the vibrant Cathedral Square precinct in the heart of the City. The seven-storey structure with its cylindrical form is designed to encourage people through the plaza and into its open, inviting spaces. The materials used throughout the building are natural woods, locally quarried granite and natural fabrics which add to the warmth of the space. Clever design allows for interesting light and shadow effects throughout the building.

This significant civic building has beautiful views of the City and the Swan River, with a range of internal spaces to accommodate a variety of functions and activities. The venue is accessible by public transport and close to ample parking options.
