THE OUTDOOR ROOM

Design in Concrete

A new and highly inovative paving alternative.

Exposed Concrete is fast becoming the number one choice of architects, builders and home owners. It's the perfect product for most landscaping applications, ideally suited for driveways, paths, alfresco's and pool surrounds. See for yourself why exposed concrete has become the fashionable choice in paving.

Design in Stone

With the ever-increasing demand for feature stone in todays housing and landscaping industry, The Quarry has established a range of stone suitable for interior and exterior applications that are unique to the market. Profiles include; Walling, Flooring, Tiling, Paving, Capping and Mosaics. We also have an excellent selection of natural stone capping and glass mosaics for swimming pools.

Natural stones are a product of nature and buyers must be aware that variations in colour, dimensions and thickness may occur.
